PROFESSIONAL EXPERIENCE

Software Developer Intern

Oct 2025 – Apr 2026

Virtual Oplossing Pvt. Ltd., Mohali

- Developed and maintained responsive web applications using **React.js**, **Next.js**, **TypeScript**, and **Tailwind CSS** for client-facing projects.
- Built and optimized a production-grade **Salon Management Dashboard**, enabling service, category, and approval workflow management through **REST API** integrations.
- Implemented scalable state management using **Redux Toolkit**, improving application maintainability and enhancing user experience.
- Collaborated with designers and backend developers to integrate APIs, resolve UI issues, and deliver high-quality features within project timelines.
- Followed industry-standard development practices using **Git**, code reviews, and component-driven architecture to maintain clean and scalable codebases.

Technical Skills

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend Technologies: Redux, Vite, Tailwind CSS, Material-UI, Bootstrap

Frameworks/Libraries: React.js, Next.js, Redux Toolkit (RTK), Node.js, Express.js

Backend Databases: MongoDB, RESTFUL APIs

Developer Tools: VS Code, Git, GitHub, Vercel, Postman

CS Fundamentals: OOP, Operating Systems, Computer Networks, DBMS

EDUCATION

BHAI GURDAS INSTITUTE OF ENGINEERING AND TECHNOLOGY

Sangrur, Punjab

Bachelor of Technology in Computer Science and Engineering

2022 - 2026

GOVT. SECONDARY SCHOOL (GIRLS)

Nabha, Punjab

CLASS XII Percentage: 94.8%

2021 - 2022

Key Projects

Salon App (Admin Dashboard) | *Next.js, REST API*

- Architected a high-performance admin dashboard using Next.js, ensuring type safety and a responsive UI across all devices.
- Engineered a centralized state management system using Redux Toolkit to handle complex service hierarchies and global application state.
- Optimized data fetching and synchronization by integrating RESTful APIs, enabling dynamic CRUD operations for services and categories.

QuickStay (Hotel Booking Platform) | *React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Stripe, Clerk*

- Developed a full-stack hotel booking platform enabling users to search, explore, and reserve hotel rooms through a responsive and user-friendly interface.
- Implemented secure authentication, booking management, and booking history features, allowing users to manage reservations seamlessly.
- Integrated Stripe Payment Gateway for secure online payments and automated booking confirmation emails to enhance user experience.
- Built RESTful APIs and an admin dashboard for managing hotels, rooms, bookings, and users using Node.js, Express.js, and MongoDB.
